# MINISTRY OF DEFENCE

## INDIAN NAVY WESEE

Date: 27 September 2026 Ref: WESEE/CYBER/2026-004

**SUBJECT: DEPLOYMENT OF POST-QUANTUM CRYPTOGRAPHY**

This document outlines the strategic implementation of ML-KEM and ML-DSA across frontline maritime communication networks. Due to the rising threat of Harvest-Now-Decrypt-Later (HNDL) attacks by adversarial nation-states, all legacy RSA/ECC keys must be rotated to quantum-resistant standards by Q4 2026.

1. Phase 1: Submarine Communications Network (SCN) upgrade.
2. Phase 2: Shore-to-Ship telemetry encryption.
3. Phase 3: ProvenanceVault integration for document attribution.
